It should not be a problem-- but it may delay the check, which may have already been cut under PHILPAC. John/Andrea, please take the necessary actions. Let me know if there are any problems. Thx, Greg

Howard received a call from Barton's Chief of Staff asking that our contribution be under Kraft instead of PM. she pleaded that Barton is under tremendous heat on FDA Reform and receipt of tobacco contributions. Although we don't like this, because we do not want any public connection with FDA Reform efforts in the House, Howard asks if you can arrange the Barton contribution be downloaded from Kraft. Can you let me know?
